

A VERY SPECIAL GIFT, FOR A VERY SPECIAL PERSON.

In a modest ceremony at **Paraplegic Center** Hayatabad, the keys of a custom made **“Motor Riksha”**, were presented to **“Mr. Noor Mohammad”**, from Nowshera, unable to stand or walk on his both legs. He is suffering from a mysterious disease, since he was 13, breaking his legs bones repeatedly (more than 30 times to be more accurate), however, he is a man of courage and don't want to be dependent on others.

This **“Motor Riksha”** was specially manufactured for him, with the financial support of the **“Tanzeem Lissaile Wal Mahroom”** Govt of NWFP.

It's also pertinent to mention that **“Paraplegic Center”** **Hayatabad** has provided adoptive/supportive equipment to 137 poor and destitute patients from all over the province.

The CEO, of the Center, stated that **“Paraplegic Center”** is striving to enable people with disabilities (rather with special abilities) to become, productive members of the society and not to be dependent on their respective families and/or society at large.

He expressed his immense pleasure on achieving this goal in case of **“Noor Mohammad”**, and hoped that many more people like him will be able live independent & dignified lives, if organizations, like **“Tanzeem, Lissaile Wal Mahroom”**, continued it's financial support.

He also expressed his hope that in future not only organizations like **“Tanzeem”** but individual philanthropists will also pitch in, so that we can support more and more special people, achieve financial independence.
